PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of professional experience building and maintaining enterprise web applications using React.js, PHP, CodeIgniter 3 & 4, Slim Framework, and MySQL. Skilled in developing ERP systems, healthcare platforms, RESTful APIs, and secure administrative portals with expertise in MVC architecture, database optimization, authentication, production support, and performance optimization. Experienced in collaborating with clients and delivering scalable, high-quality business solutions.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Backend: PHP, CodeIgniter 3, CodeIgniter 4, Slim Framework, Node.js, Express.js, Python

Databases: MySQL, SQLite

Tools: Git, GitHub, Postman, phpMyAdmin, Composer, WinSCP

PROFESSIONAL EXPERIENCE

Junior Developer

Sanvima Solutions Private Limited

Apr 2024 – Jul 2026

Hyderabad, Telangana, India

- Developed and maintained enterprise web applications using React.js, PHP, CodeIgniter 3/4, Slim Framework, and MySQL across ERP, Healthcare, and Education domains, delivering scalable business solutions.
- Designed, developed, and integrated RESTful APIs, MVC modules, database schemas, and business workflows while seamlessly integrating frontend and backend applications based on client requirements.
- Developed and enhanced Recruitment and Payroll ERP modules including candidate management, employee management, salary structures, payroll processing, payslip generation, invoice generation, and workflow automation.
- Led a team of three developers during the development and enhancement of the Alpha ERP project, coordinating feature implementation, technical discussions, and timely delivery of enterprise solutions.
- Collaborated with clients, QA teams, and cross-functional stakeholders to gather business requirements, resolve production issues, optimize application performance, and deliver high-quality software solutions.

PROFESSIONAL PROJECTS

Alpha ERP – Recruitment & Payroll Management System

- Developed and enhanced an enterprise ERP solution supporting recruitment, employee management, attendance, leave management, payroll, timesheets, invoice generation, and administrative operations.
- Implemented payroll workflows, salary structures, payslip generation, candidate onboarding, database enhancements, and led a team of three developers to deliver enterprise features.

Medayus – Healthcare Appointment Management Platform

- Developed and enhanced a multi-location healthcare platform supporting patient registration, appointment booking, doctor scheduling, prescription management, email notifications, and image upload functionality using React.js, Slim Framework APIs, CodeIgniter 3, and MySQL.
- Optimized business workflows, resolved production issues, and integrated frontend, backend, and MySQL components to improve system performance and patient experience.

Kalakakshaaha – Online Learning & Tutor Discovery Platform

- Developed and enhanced an online learning platform connecting students with tutors, trainers, and educational institutes across arts, languages, academics, and skill-based learning programs.
- Built and maintained React.js interfaces, CodeIgniter backend modules, tutor onboarding, student registration, profile management, search functionality, and administrative features while ensuring seamless integration between the website and admin portal.

EDUCATION

Sphoorthy Engineering College

Bachelor of Technology in Computer Science and Engineering

Hyderabad, Telangana, India

2023
