PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and maintaining enterprise web applications using React.js, PHP, CodeIgniter 3 and 4, Slim PHP, and MySQL. Skilled in developing ERP systems, healthcare platforms, RESTful APIs, and administrative portals with expertise in MVC architecture, database design, production support, and performance optimization. Experienced in leading development teams, collaborating with clients, and delivering scalable business solutions.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Backend: PHP, CodeIgniter 3, CodeIgniter 4, Slim Framework, Node.js, Express.js, Python

Databases: MySQL, SQLite

Tools: Git, GitHub, Postman, phpMyAdmin, Composer, WinSCP

PROFESSIONAL EXPERIENCE

Senior Developer

Sanvima Solutions Private Limited

Apr 2024 – Jul 2026

Hyderabad, Telangana, India

- Built, enhanced, and maintained enterprise web applications using React.js, PHP, CodeIgniter 3/4, Slim Framework, and MySQL across ERP, healthcare, and educational domains, delivering scalable solutions for business operations.
- Engineered RESTful APIs, MVC modules, database schemas, SQL queries, and business workflows while integrating frontend and backend systems based on client requirements and production needs.
- Implemented Payroll and Recruitment ERP modules including salary structures, payroll processing, statutory deductions, payslip generation, employee management, candidate onboarding, and workflow automation.
- Promoted to Senior Developer based on technical contributions and project ownership, leading a team of three developers through task planning, code reviews, technical guidance, and timely delivery of enterprise features.
- Collaborated with clients, QA teams, and cross-functional stakeholders to deliver new features, resolve production issues, optimize application performance, and ensure high-quality software releases.

PROFESSIONAL PROJECTS

Alpha ERP – Recruitment & Payroll Management System

- Developed and enhanced an enterprise ERP solution for HR and business operations, supporting recruitment, employee management, attendance, leave management, payroll processing, and statutory compliance.
- Implemented payroll workflows, salary structures, payslip generation, candidate onboarding, REST API integrations, and database enhancements while leading a team of three developers to deliver client requirements.

Medayus – Healthcare Appointment Management Platform

- Enhanced a multi-location healthcare platform enabling patient registration, doctor scheduling, appointment booking, slot management, payment workflows, and prescription management through React.js, Slim Framework APIs, and CodeIgniter Admin Panel.
- Developed new features, optimized business workflows, resolved production issues, and integrated frontend, backend, and MySQL database components to improve system performance and user experience.

Kalakakshaaha – Online Learning & Tutor Discovery Platform

- Developed and enhanced an online learning platform connecting students with tutors, trainers, and educational institutes across arts, languages, academics, and skill-based learning programs.
- Built and maintained React.js interfaces, CodeIgniter backend modules, tutor onboarding, student registration, profile management, search functionality, and administrative features while ensuring seamless integration between the website and admin portal.

EDUCATION

Sphoorthy Engineering College

Bachelor of Technology in Computer Science and Engineering

Hyderabad, Telangana, India

2023
